

Please in this time and age don't fall victim to this nonsense, please. I have a small mini coach I use for both corporate and casual events my clients and I need to know what's going on when traveling outside an area where we don't know any am or fm stations for immediate information and besides don't you make any decisions concerning my listening habits without FIRST you checking out XM radio its time is here, now if it's up to you ,be BOLD!

THANK YOU IN ADVANCE
Bill Wass
